Hand Sanitizer Non-Sterile Solution

8 oz, 1-Gallon, 5-Gallons, and
55-Gallons Available*

*while supplies last

SurfacePrep SuperE Sanitizer is manufactured under FDA guidelines and is effective when used to prevent the spread of disease by killing germs on skin and surfaces.

According to research, alcohol based sanitizers kill most bacteria and fungi, and stop viruses.

Alcohol rub sanitizers containing at least 70% alcohol (our version is 80%) kill 99.9% of the bacteria on hands 30 seconds after application and 99.99% within one minute.

Now available at all locations, contact us for more information:
